

Trip to NYC inspires spectacular entrance

On recent trip To NEW York City, Graham Baker was impressed by the spectacular entranceways of swanky hotels and Park Avenue residences. His trip resulted in the sensational design for the entrance for the St. Clair, the new condominium residence near Yonge and St. Clair.

The very sophisticated and elegant canopy of filigreed iron and glass is reminiscent of those at Saks Fifth Avenue, the Plaza, the Pierre and the Sherry Netherland.

Residents of the St.Clair will be able to enjoy the many conveniences of the area, the prestige of an address in such a fashionable area and the luxury of living on a quiet residential street.

Now, Barclay Grayson, the St. Clair developers are giving away five trips for two to stay at the Plaza Hotel in New York. Contact the St. Clair Sales Office for more information at (416)513-0029
