NY Towers' groundbreaking toast

To celebrate NY Towers' recent start of construction, a bottle of Champagne was popped for a VIP crowd.

NY Towers, a joint venture between The Daniels Corporation and The Bowmore Group of Companies, consist of four dramatic towers and a cluster of townhomes. Their design was inspired by the classic Art Deco architecture of the Chrysler Building and Waldorf Astoria Hotel in New York City.

Assisting The Daniels Corporations' vice-president Niall Haggart (holding the giant Champagne bottle) are (FROM LEFT) Sheldon Salcman, president of The Bowmore Group of Companies Inc.; Pat Baker, president of Baker Real Estate; Toronto Councilor David Shiner; Clifford Korman of Kirkor Architects; and Mitchell Cohen, president of The Daniels Corporation.
