Malibu at Harbourfront

A forgotten piece of Toronto's history was discovered at Lake Shore Boulevard and Bathurst Street during the excavation for **Malibu at Harbourfront**. Workers unearthed the remains of Queen's Wharf, one of the first wharfs built along the original Lake Ontario shoreline in the mid-1800s. A section of the relic was presented to the **Friends of Fort York**. Supervising the transfer were **Ron Williamson** of **Archeological Services Inc.** and **Rony Hirsh**, **President** of **Malibu Investments**, builder of the condominium.
